Tutzing Sommerakademie:
**Terrortimes, Terrorscapes?
Continuities of War and Genocide
in 20th Century Europe**

In Cooperation with Arizona State
University

August 1st to 4th, 2014

Invitation

2014 marks the centenary of the beginning of the Great War and the 75th anniversary of Germany's attack on Poland in 1939. This calls us to explore temporal and spatial continuities between the diverse horrors of war and genocide in the first half of the 20th century as well as investigate diverse forms of memory and memorialization of atrocity. Furthermore, the conference seeks to include transnational perspectives by inviting scholars from different national backgrounds working in Europe and the US as well as providing explicitly transnational perspectives.

As such key concepts like temporal continuities of war and atrocity, colonial and decolonization violence, spatial approaches to define violence as well as gender and generational memory of war and atrocity are to be explored in this conference.

You are heartily invited to participate in this conference.
